MEMORANDUM

TO: Delila Bruno, Administrator
FROM: Tim Thennis, Recovery Bureau Chief
SUBJECT: City of Glendive Disaster Declaration Request

As you are aware, Governor Bullock has received a letter from the Mayor of Glendive, requesting that he declare their city a disaster area in order to provide supplemental relief for the damage caused by a severe wind storm on July 27, 2015 in accordance with Section 10-3-311, MCA.

Montana Disaster & Emergency Services' State Emergency Coordination Center (SECC) monitored and assisted the city in response to the emergency that started on July 27, 2015, from the severe storm. The SECC and the District 4 Representative worked with city personnel and the Local DES Coordinator in monitoring their needs during this emergency.

City personnel worked long hours starting July 27th, and the following week to clear debris and repair utilities for the residents of Glendive. Contractors were hired to provide assistance with removing some dangerous trees and hauling sewage from a lift station that was damaged.

I have talked with city personnel and explained the eligibility guidelines under the Public Assistance Program. The preliminary damage estimate of the eligible emergency work is \$35,906.35. The city has \$11,338.00 available from their 2-mill emergency Levy. They are requesting State assistance in the amount of \$24,568.35

I have reviewed the City's documentation for the emergency work, and the estimated utility repair.

I concur with the City that the damage is beyond their financial capabilities and that state financial assistance is needed.

Therefore, my recommendations are as follows:

- The Governor declares an emergency for the City of Glendive. Attached is the proposed Executive Order.
- DES staff will prepare detailed Damage Survey Reports (DSR's) documenting the eligible costs of the emergency worked performed during this event.
- DES staff will prepare a "Budget Change Document" for the State's portion of these eligible costs and other extra ordinary costs (OT, Travel, Per Diem, etc.) that DES Staff has or will incur in the preparation of DSR's, and Project Management.
