

OFFICE OF THE GOVERNOR  
STATE OF MONTANA

BRIAN SCHWEITZER  
GOVERNOR

JOHN BOHLINGER  
LT. GOVERNOR

January 2009

Dear reader:

The attached worksheet, prepared in response to a request from the National Governor's Association (NGA) and Western Governor's Association (WGA), represents the Schweitzer Administration's proposed list of Montana "shovel-ready" projects for which federal economic stimulus dollars can be obligated quickly.

The does not reflect ALL the infrastructure projects that are on waiting lists across the state, but only those that could be gathered under a tight deadline and which can meet the expected federal mandate requiring dollars to be obligated with 180 days of enactment of the stimulus package.

The list is not in any order of priority, but in general categories requested by the NGA and WGA. Until the President Elect and Congress agree on the precise details of the economic recovery package, it is not possible to determine which of the projects listed may qualify for funding. This is Montana's best effort to be ready to take full advantage of every federal dollar that may come our way.

Sincerely,

A handwritten signature in blue ink, appearing to read "B. Schweitzer".

BRIAN SCHWEITZER  
Governor
