NOW, THEREFORE, I, STEVE BULLOCK, Governor of the State of Montana, pursuant to the authority vested in me as Governor under the Constitution of the State of Montana, Title 10, Chapter 3, MCA, and under other applicable statutes, do hereby continue the Upper Clark Fork

**PURPOSE:**

The purpose of the Council is to advise the Governor as trustee of the State’s natural resources pursuant to CERCLA and CECRA with respect to issues involving restoration, replacement, or acquisition of the equivalent of the injured natural resources that were the subject of the litigation in the Upper Clark Fork River Basin, including the use of the funds that were recovered from settlement of the litigation. The Council shall:

- work with and advise the Natural Resource Damage Program as the Program develops and prepares its draft of the annual restoration work plan and any modification of the Restoration Plan Procedures and Criteria;
- advise the Governor as trustee as to the use of the funds that were recovered through settlement in accordance with the Governor’s restoration plan and as otherwise provided by law;
- establish a procedure for receiving input from and sharing information with the public and the various interested agencies;

The advice of the Council will not be considered to the exclusion of input of other interested individuals or groups. The existence of and advice given by the Council does not in any way diminish the powers of the governor as trustee of the State’s natural resources pursuant to CERCLA and CECRA, nor is any advice of the Council intended to bind the State in any litigation or related negotiations.

The Council may adopt procedures related to its interface with the Natural Resource Damage Program and other matters that fall within its purpose, as set forth above. The Council’s procedures may not conflict with law or any court order, and any procedures adopted by the Council must be approved by the Governor.
